

M44-7 and M44-7-H DJ Record Needles, Turntablist, Scratch

Skip Resistance: ultra high

Output: ultra high

Record Wear: ultra low

Sound Emphasis: big bass

M44-7

Revived exactly the same as the original, this legendary battle needle offers ultra-high skip resistance and ultra-high output champion DJ's worldwide, including The former Invisibl Skratch Piklz, X-ecutioners, and The World Famous Beat Junkies.

Engineered for scratch DJ's and turntablists, the M44-7 is designed not to skip under even the most demanding circumstances.

M44-7-H

Simplifying the setup for turntablists worldwide, Shure recently announced the release of the M44-7-H Turntablist Cartridge. Scratch DJs can now virtually eliminate setup time and install this model directly onto a turntable tonearm.
